The Department of Energy has reviewed the Operable Unit No. 11 (OU-11) Revised Field Sampling Plan (FSP) and the follow-up response summary. The Colorado Department of Health and the U. S. Environmental Protection Agency have also reviewed both these documents and have provided verbal approval for plan implementation. EG&G should proceed, on schedule, with the implementation of the OU-11 FSP as revised by the response summary. In addition, EG&G should finalize the FSP for distribution by June 16, 1994.
